

The 13th annual Mining Matters *Diamond in the Rough Golf Classic* will be taking place on Thursday, **June 13, 2019** at Cedar Brae Golf Club in Scarborough. Also taking place alongside the Golf Tournament is the 8th annual *Rock Cycle Ride for Minerals Education*.

We are asking for volunteers to help out with the Tournament. This is a great opportunity to spend a fun day with your colleagues while helping to raise funds that support innovative educational programming for students, teachers, and the public about Earth science, mining and the importance of mineral resources.

Volunteers will be put into teams at each hole where they will welcome golfers as they come through. Some holes will have food and drinks to give out or fun activities to play with the golfers. The hole assignments and further details will be sent out closer to the date. The day begins bright and early at 7:30 am. Breakfast, lunch and dinner will be provided, as well as other amenities and snacks. We will have umbrellas, sun screen and other items available to keep you comfortable and protected from the weather.

If you are interested in volunteering, please send an email to Sarah Hahn, Coordinator, Operations, Communications and Events at shahn@miningmatters.ca.

Thank you and we hope to see you on the green!
