The Human Water Cycle Worksheet

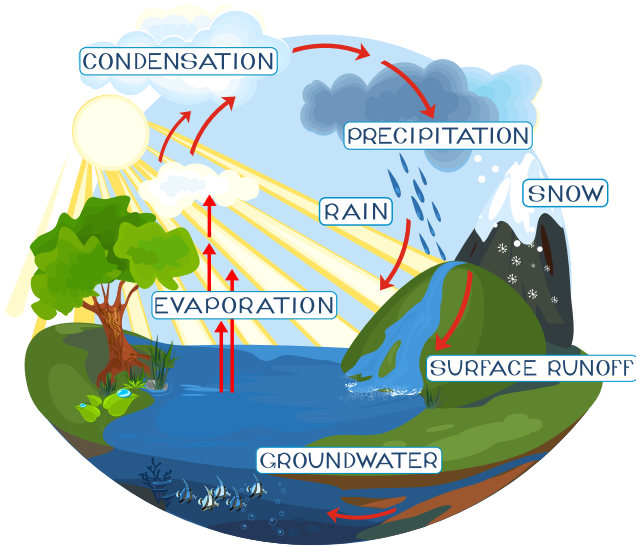

Use this sheet to keep track of your travels through the water cycle. You may roll the same location multiple times in a row, these are recorded individually.

1		10	
2		11	
3		12	
4		13	
5		14	
6		15	
7		16	
8		17	
9		18	

Use this table to add up how often you landed in each location.

Animal	
Clouds	
Glacier	
Groundwater	
Lake	
Ocean	
Plant	
River	
Soil	

Where did you spend the most time?

Were there any locations you missed? Why do you think this happened?

Did you get stuck at any locations because you were rolling the same thing repeatedly?

Write a story about your travels through the water cycle by making connections to real life.
